Influential Business and Labor Leaders Join America's Agenda Board of Directors

Washington (November 6, 2009) - *America's Agenda: Health Care for All* today announced the appointment of four new members to its Board of Directors: George Halvorson, Chairman and CEO of Kaiser Permanente, Matt Loeb, President of the International Alliance of Theatrical Stage Employees, David Norton, Group Chairman of Johnson & Johnson, and Cecil Roberts, President of the United Mine Workers of America.

"We are honored and fortunate to have individuals of this caliber join our Board of Directors," says Doug Dority, President of America's Agenda. "The addition of these innovative and insightful leaders to our Board will strengthen our ability to help ensure access to affordable, high quality health care for every American."

"Today's announcement further strengthens an organization of influential voices who share a dedication to enacting high-quality and comprehensive health-care reform this year. We remain confident that representatives in Washington will deliver a bill to the president's desk."

Founded in 2004, *America's Agenda* has actively built and strengthened comprehensive health-care reform campaigns in states across the country. The organization's campaigns have provided templates for federal legislation and won passage, in states like Vermont and West Virginia, of some the most far-reaching health reform legislation enacted, to date, anywhere in the country.
