Insider intelligence on health care reform

HAPPENING TODAY:

-- FORMER ADVERSARIES UNITE: A coalition of business and labor groups led by former House Democratic leader Dick Gephardt and former HHS Sec. Tommy Thompson will announce support for 'modernizing our health care delivery system with a greater national emphasis on preventing chronic diseases, coordinating patient care and support through all stages of treatment, implementing health information technology ... reducing wasteful inefficiencies, and aligning incentives to encourage both patients and their health care providers to adopt the best health care practices based on solid scientific evidence.' 10 a.m., National Press Club, Murrow Room.
